FOR IMMEDIATE RELEASE

**AIRCARE SOLUTIONS GROUP ADDS FLIGHT ATTENDANT SERVICE TRAINING
TO FACTS® TRAINING OFFERING**

SAVANNAH, GA, January 11, 2004 - AirCare Solutions Group announced today that it will begin offering a new Flight Attendant Service Training module with its regularly scheduled FACTS® Crewmember Training classes beginning in February 2004.

The two-day Initial Flight Attendant Service Training will include a comprehensive business aviation indoctrination section, flight attendant duties, professional service procedures, galley safety, food handling certification and catering among other topics. A half-day Recurrent Flight Attendant Service Training module will cover advanced service techniques for seasoned flight attendants.

"Service Training is a natural extension of our current FACTS® Training offering," said Douglas Mykol, CEO of AirCare Solutions Group. "With the addition of Flight Attendant Service Training we have the ability to offer our students a single source for both service and safety training. Utilizing the FACTS cabin simulators, corporate aircraft, and some new classroom training devices, we believe that this service training is the best available."

Throughout the year, AirCare Solutions Group holds over 84 FACTS® Training classes regularly at eight major business aviation hubs across the United States. AirCare Solutions Group offers FACTS training monthly at SimuFlite's Dallas facility.

AirCare Solutions Group's FACTS® Emergency Procedures Training meets or exceeds all emergency procedures training requirements for Part 91 and 135 flight operations for crewmembers.

AirCare Solutions Group is located in Olympia, Washington. The company offers aircrew service and emergency procedures training, telemedical services, inflight emergency, health and safety products, corporate flight staffing, and consulting services. More information on AirCare Solutions Group can be found at www.aircaresolutionsgroup.com.
